Subject: BDCP Admin Draft EIR/EIS Section 2.4 Purpose Statement

Russ,

The version of Section 2.4 posted on the BDCP website and dated 2/29/12 does not contain the text agreed to by David Nawi and Mark Cowin on 2/23/12 (see attached email). The paragraph on page 2-4, lines 15-25, contains 5 sentences. In the posted (2/29/12) version, the 3rd and 4th sentences have been transposed and need to be corrected. As demonstrated in the attached email, the 3rd sentence should be the one starting with "It is not intended to imply..." The 4th sentence should be the one starting with "As indicated by the ..." With this correction, no further changes to Section 2.4 are anticipated. Please confirm your understanding and direction to ICF to make this correction. Hopefully this will put this issue to rest. Thanks!

Patti Idlof

This Email message contained an attachment named  
image001.jpg  
which may be a computer program. This attached computer program could  
contain a computer virus which could cause harm to EPA's computers,  
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced  
into the EPA network. EPA is deleting all computer program attachments  
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you  
should contact the sender and request that they rename the file name  
extension and resend the Email with the renamed attachment. After  
receiving the revised Email, containing the renamed attachment, you can  
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at  
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.

Mark – Confirming that we are good to go with the language below, and that it will be reflected without further change in the draft DEIS/EIR.

Thanks.

David

Subject: Purpose Statement

Mark – Would you please give me a call re the Purpose Statement language we discussed last week – set out below.

David

The above Purpose Statement reflects the intent to advance the coequal goals set forth in the Sacramento–San Joaquin Delta Reform Act of 2009 of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. The above phrase—restore and protect the ability of the SWP and CVP to deliver up to full contract amounts— is related to the upper limit of legal CVP and SWP contractual water amounts and delineates an upper bound for development of EIR/EIS alternatives, not a target. It is not intended to imply that increased quantities of water will be delivered under the BDCP. As indicated by the "up to full contract amounts" phrase, alternatives need not be capable of delivering full contract amounts on average in order to meet the project purposes. Alternatives that depict design capacities or operational parameters that would result in deliveries of less than full contract amounts are consistent with this purpose.
